Liechtenstein

Overall Risk Score: 33

Risk Level: low

This score is a composite of the four domain scores discussed below, which are weighted and combined to produce the overall country risk score. Each country is given a score from 1 to 100 for each domain and for the total bribery risk. A higher score indicates a higher risk of business bribery. Assessments of whether a given domain score is “good” or “poor” are made relative to all other jurisdictions within that domain.

1. Business Interactions with Government: Liechtenstein receives a medium score of 40 in this domain, based on a low degree of government interaction and a medium regulatory burden.

2. Anti-bribery Deterrence and Enforcement: Liechtenstein has no data for this domain. It receives a very good score of 20 based on a gradient-boosting imputation algorithm.

3. Government and Civil Service Transparency: Liechtenstein receives a medium score of 50 in this domain, based on good governmental transparency and poor transparency of financial interests.

4. Capacity for Civil Society Oversight: Liechtenstein receives a good score of 10 in this domain, based on a high degree of media freedom/quality and a very high degree of civil society engagement.
