Poland

Overall Risk Score: 34

Risk Level: low

This score is a composite of the four domain scores discussed below, which are weighted and combined to produce the overall country risk score. Each country is given a score from 1 to 100 for each domain and for the total bribery risk. A higher score indicates a higher risk of business bribery. Assessments of whether a given domain score is "good" or "poor" are made relative to all other jurisdictions within that domain.

1. Business Interactions with Government: Poland receives a good score of 35 in this domain, based on a low degree of government interaction, a low expectation of bribes, and a medium regulatory burden.

2. Anti-bribery Deterrence and Enforcement: Poland receives a good score of 38 in this domain, based on a high quality of anti-bribery dissuasion and a high quality of anti-bribery enforcement.

3. Government and Civil Service Transparency: Poland receives a good score of 34 in this domain, based on good governmental transparency and good transparency of financial interests.

4. Capacity for Civil Society Oversight: Poland receives a good score of 27 in this domain, based on a high degree of media freedom/quality and a high degree of civil society engagement.

TRACE Bribery Risk Typology:
Democracy with complex economy

This group generally consists of stable, democratic states with complex, diverse economies and fair-to-weak civil societies.
