Russian Federation

Overall Risk Score: 54

Risk Level: medium

This score is a composite of the four domain scores discussed below, which are weighted and combined to produce the overall country risk score. Each country is given a score from 1 to 100 for each domain and for the total bribery risk. A higher score indicates a higher risk of business bribery. Assessments of whether a given domain score is "good" or "poor" are made relative to all other jurisdictions within that domain.

1. Business Interactions with Government: The Russian Federation receives a medium score of 50 in this domain, based on a low degree of government interaction, a high expectation of bribes, and a medium regulatory burden.

2. Anti-bribery Deterrence and Enforcement: The Russian Federation receives a poor score of 71 in this domain, based on a low quality of anti-bribery dissuasion and a low quality of anti-bribery enforcement.

3. Government and Civil Service Transparency: The Russian Federation receives a medium score of 45 in this domain, based on good governmental transparency and medium transparency of financial interests.

4. Capacity for Civil Society Oversight: The Russian Federation receives a poor score of 60 in this domain, based on a low degree of media freedom/quality and a low degree of civil society engagement.
