Sudan

Overall Risk Score: 66

Risk Level: high

This score is a composite of the four domain scores discussed below, which are weighted and combined to produce the overall country risk score. Each country is given a score from 1 to 100 for each domain and for the total bribery risk. A higher score indicates a higher risk of business bribery. Assessments of whether a given domain score is "good" or "poor" are made relative to all other jurisdictions within that domain.

1. **Business Interactions with Government**: Sudan receives a poor score of 59 in this domain, based on a high degree of government interaction, a medium expectation of bribes, and a high regulatory burden.

2. **Anti-bribery Deterrence and Enforcement**: Sudan receives a very poor score of 89 in this domain, based on a very low quality of anti-bribery dissuasion and a very low quality of anti-bribery enforcement.

3. **Government and Civil Service Transparency**: Sudan receives a poor score of 69 in this domain, based on very poor governmental transparency and medium transparency of financial interests.

4. **Capacity for Civil Society Oversight**: Sudan receives a poor score of 60 in this domain, based on a low degree of media freedom/quality and a low degree of civil society engagement.
