Honduras

Overall Risk Score: 59

Risk Level: high

This score is a composite of the four domain scores discussed below, which are weighted and combined to produce the overall country risk score. Each country is given a score from 1 to 100 for each domain and for the total bribery risk. A higher score indicates a higher risk of business bribery. Assessments of whether a given domain score is "good" or "poor" are made relative to all other jurisdictions within that domain.

1. Business Interactions with Government: Honduras receives a poor score of 56 in this domain, based on a high degree of government interaction, a high expectation of bribes, and a medium regulatory burden.

2. Anti-bribery Deterrence and Enforcement: Honduras receives a poor score of 77 in this domain, based on a low quality of anti-bribery dissuasion and a low quality of anti-bribery enforcement.

3. Government and Civil Service Transparency: Honduras receives a medium score of 59 in this domain, based on medium governmental transparency and medium transparency of financial interests.

4. Capacity for Civil Society Oversight: Honduras receives a poor score of 51 in this domain, based on a medium degree of media freedom/quality and a low degree of civil society engagement.

TRACE Bribery Risk Typology:

Democracy with simpler economy

This group is typified by stable democratic government and an economy largely built on the export of a limited number of simple products.
