Kiribati

Overall Risk Score: 49

Risk Level: medium

This score is a composite of the four domain scores discussed below, which are weighted and combined to produce the overall country risk score. Each country is given a score from 1 to 100 for each domain and for the total bribery risk. A higher score indicates a higher risk of business bribery. Assessments of whether a given domain score is “good” or “poor” are made relative to all other jurisdictions within that domain.

1. Business Interactions with Government: Kiribati receives a poor score of 66 in this domain, based on a high degree of government interaction and a very high regulatory burden.

2. Anti-bribery Deterrence and Enforcement: Kiribati receives a good score of 19 in this domain, based on a high quality of anti-bribery dissuasion and a high quality of anti-bribery enforcement.

3. Government and Civil Service Transparency: Kiribati receives a poor score of 67 in this domain, based on medium governmental transparency and poor transparency of financial interests.

4. Capacity for Civil Society Oversight: Kiribati receives a good score of 22 in this domain, based on a very high degree of media freedom/quality and a medium degree of civil society engagement.

TRACE Bribery Risk Typology:
Democracy with simpler economy

This group is typified by stable democratic government and an economy largely built on the export of a limited number of simple products.
