**TRACE Bribery Risk Matrix**

**Mongolia**

**Overall Risk Score:** 47

**Risk Level:** medium

This score is a composite of the four domain scores discussed below, which are weighted and combined to produce the overall country risk score. Each country is given a score from 1 to 100 for each domain and for the total bribery risk. A higher score indicates a higher risk of business bribery. Assessments of whether a given domain score is “good” or “poor” are made relative to all other jurisdictions within that domain.

1. **Business Interactions with Government:** Mongolia receives a poor score of 59 in this domain, based on a high degree of government interaction, a high expectation of bribes, and a high regulatory burden.

2. **Anti-bribery Deterrence and Enforcement:** Mongolia receives a medium score of 44 in this domain, based on a medium quality of anti-bribery dissuasion and a medium quality of anti-bribery enforcement.

3. **Government and Civil Service Transparency:** Mongolia receives a medium score of 42 in this domain, based on medium governmental transparency and good transparency of financial interests.

4. **Capacity for Civil Society Oversight:** Mongolia receives a medium score of 31 in this domain, based on a high degree of media freedom/quality and a medium degree of civil society engagement.

---

**TRACE Bribery Risk Typology:**

**Democracy with simpler economy**

This group is typified by stable democratic government and an economy largely built on the export of a limited number of simple products.
