Qatar

Overall Risk Score: 52
Risk Level: medium

This score is a composite of the four domain scores discussed below, which are weighted and combined to produce the overall country risk score. Each country is given a score from 1 to 100 for each domain and for the total bribery risk. A higher score indicates a higher risk of business bribery. Assessments of whether a given domain score is “good” or “poor” are made relative to all other jurisdictions within that domain.

1. Business Interactions with Government: Qatar receives a good score of 31 in this domain, based on a medium degree of government interaction, a medium expectation of bribes, and a very low regulatory burden.

2. Anti-bribery Deterrence and Enforcement: Qatar receives a medium score of 57 in this domain, based on a low quality of anti-bribery dissuasion and a medium quality of anti-bribery enforcement.

4. Capacity for Civil Society Oversight: Qatar receives a very poor score of 73 in this domain, based on a very low degree of media freedom/quality and a very low degree of civil society engagement.

TRACE Bribery Risk Typology: Authoritarian with robust enforcement and oil

This group is characterized by stable, oil-rich, less democratic states with strong anti-bribery enforcement.
